

PJM Market Impact of Allowing Nuclear Plants to Shut Down

Supplying PJM Daily Load – With and Without Nuclear

What is the cost of doing nothing?

By eliminating low cost nuclear, the supply curve shifts left and forces higher cost units to make up the difference.

If we do nothing and allow nuclear plants to close, monthly residential electric bills will go up. Looking at Ohio specifically, electric bills for the average residential customer will increase by \$2.50-\$5.00 per month, according to recent studies.
